The quarterly Virginia Heart Attack Coalition (VHAC) meeting was started at 10:07 am by Craig Evans. All attendees introduced themselves and their respective organization affiliations to the group.

**ACCEPTANCE OF MINUTES:**
Minutes from the June 28, 2018, meeting were emailed to all attendees prior to the meeting for review. A motion was made to approve the minutes as provided and was seconded. All attendees were in favor of approval with no changes.

**REGIONAL DATA UPDATE:**
Craig Evans advised that he was able to pull regional data which shows the Median Time to Primary PCI for FMC for Non-transferred STEMI patients was 74 minutes with two PCI centers
not reporting. The overall times are from 66 minutes to 90 minutes. In 2017, the FMC to 12-lead time for EMS was 10 minutes in chest pain and cardiovascular complaint patients or 82% of agencies.

ACTION Registry is now called Chest Pain - MI Registry as of June 28, 2018. Their new m

**ACC UPDATE:**
ACC reached out to Craig and wants to do beta testing of regional reports with EMS sites with large numbers of STEMIs using the Chest Pain-MI Registry in regions such as those covered by the Northern Virginia, Tidewater and Peninsulas EMS Councils. They are currently getting that information together to roll it out, however, they are using the EMS Agency Code that is a field in the registry, however, most PCI centers are free-forming that information, for example, M403 or Medic 206 instead of using the OEMS assigned EMS Agency Code. This is likely because most agencies do not have this published on their ePCR’s. Craig has access to all of the codes and can provide those to the registrars for future reference. Brian Orndoff from City of Fairfax Fire Department suggested that they could have it added to the run reports so it says CFFD – Agency Number ##. Beth Adams from Fairfax County Fire & Rescue stated that the City of Fairfax is under their umbrella in ImageTrend so they’ll need to collaborate on where they are putting it so the mapping is the same for both agencies. The hope is that this can be updated by the agencies by the beginning of next quarter to start with a full quarters worth of data at the next meeting. The beta testing will be for three months, likely the 4th quarter of this calendar year and there is no charge for the testing but the price for future has not yet been set. The Council is hoping to get competitive pricing and will discuss that with the Board of Directors when those fees are announced.

**CAHP SCORE PRESENTATION:**
Dr. Stephen Day provided a presentation on CAHP Scores. A copy of the documentation attached.

**AHA ACC UPDATE:**
Ismenia (Izzie) Gaviria from AHA presented an update and provided a demonstration of the regional reporting in GWTG-CAD. It has the ability to compare hospitals to others with the other hospital information blinded but provides overall comparison. One of the biggest obstacles in getting this in all of the hospitals is getting it through security measures with IT and legal.

**PCI DATA SHARING:**
Craig Evans asked that each hospital or agency share data with the group

- Loudoun County Fire & Rescuer
They are emphasizing the importance of FMC to 12-lead time to their providers and making sure the appropriate procedures and times are marked in their reports.

- Virginia Hospital Center
  - Rita advised that for those hospitals interested in Impella, the company will come to you and do speed drills for practice in preparing for patients that can get Impella. They are helpful in getting all staff on board and being prepared.

**DISCUSSION FOR WINTER VHAC MEETING:**

- Novant Health/UVA Prince William Medical Center will have a presentation regarding early access.
- EMS data will be discussed.

The next Northern Region Quarterly Meeting of the Virginia Heart Attack Coalition will be on December 19, 2018, from 10:00 am to 12:00 pm, and will be located at Fire Station 403, 4081 University Drive, Fairfax, VA 22030. A reminder will be sent prior to that meeting.

The meeting was adjourned at 11:13 am.

**CERTIFICATION OF NORTHERN REGION QUARTERLY MEETING OF THE VIRGINIA HEART ATTACK COALITION**

Northern Virginia EMS Council
7250 Heritage Village Plaza, Suite 102
Gainesville, Virginia 20155

I, Craig Evans, Executive Director of the Northern Virginia EMS Council certify that the above minutes are a true and correct transcript of the meeting minutes of the Northern Region Quarterly Meeting of the Virginia Heart Attack Coalition held on September 19, 2018. The minutes were officially approved on December 19, 2018, at the meeting of the Committee.
